

I just wanted to take the time to write how pleased we were with the services provided by Eagle Nationwide Mortgage Company. Our broker was Dave Hecht who did an excellent job through the entire process. What we liked about the service that we received was not only his honesty and professionalism, but how he kept us informed every step of the way. If there was something we didn't understand or paperwork that needed to be submitted he was there to explain it fully and his response time was very prompt. His knowledge and resources in the industry made it possible for us to be approved for our loan at a time when loans are hard to obtain in our current economy. We would highly recommend this company and plan on using him again in the future if the opportunity should arise.
Rosanne and Harry Day
